

AREE RICOMPRESSE ALL'INTERNO DEI CONFINI DELL'OASI LA FRANCESCA SULLE QUALI

MAP OF THE PROJECT SITE

For projects with area-based activities, provide one map per project site (sub-area). Each map should include (as appropriate):

- the location of the main habitats / species targeted by the project
- the location of the different area-based activities, as planned in the proposal
- a legend with all project activities that have been located on the map and an explanation of the habitats (official names and codes).
- the boundaries of Natura 2000 sites, if relevant. If the proposal includes actions targeting species / habitats of the Habitats Directive, indicate also SCI / SAC boundaries; if it includes actions targeting bird species of the Birds Directive, indicate also SPA boundaries.
- the boundaries of the project area(s), if they are different from the Natura 2000 site boundaries.

Project name and acronym:

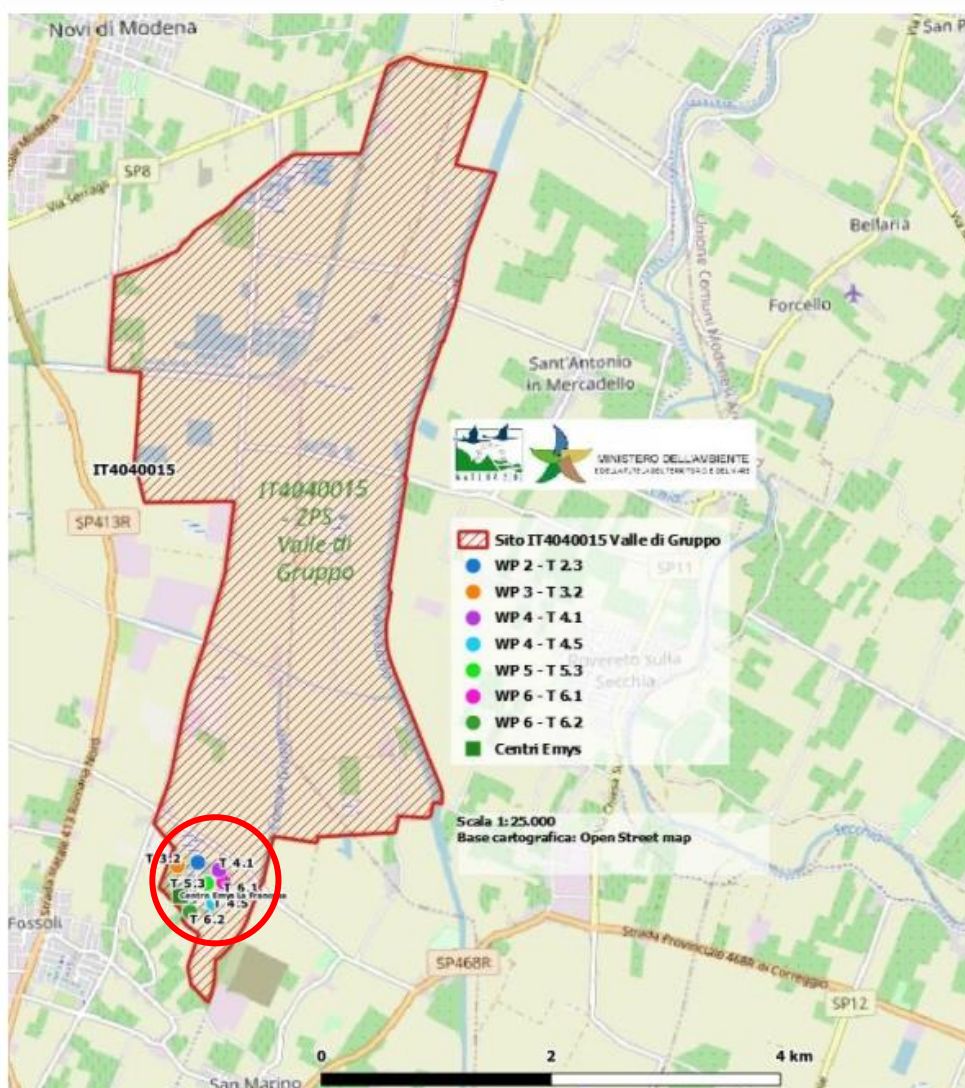

[URgent Conservation Actions pro Emys orbicularis in Italy and Slovenia] — [LIFE URCA PROEMYS]

Country

[Italia, Emilia Romagna]

Map name:

[IT4040015]
